343097 **CRESC - Computer Science in the K-8 Classroom Day 1**

Subject(s): Computer Science Audience(s): K-8
Description:

Are you interested in experiencing codable toys? Do you want to learn about unplugged activities to help you meet computer science standards? This training is for team leaders, content leaders, or teachers interested in additional knowledge and application of ways to embed computer science within their current curriculum. During this training, we will focus on grade level cross-curricular examples and activities with take-home resources.

TESS Components: 1a, 1c, 1d

Note: Computer Science in the K-8 Classroom Days 1 & 2 do not count towards the 5 days needed for the K-8 Lead Teacher Training and Stipend Program.

Note: if fewer than 7 people register, the session will be canceled.

Please bring a laptop or Chromebook to this training.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley’s Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Facilitator: Tish Knowles Presenter(s): Arkansas CS Specialist

Location: Ford/Faulkner Conference Room Limit: 50 Credit: 6.00

Date(s): Jun 4, 2018

Time: 8:30 am - 3:30 pm Registration Fee: \$0

349155 **Be a Technology Rockstar!**

Subject(s): Educational Technology, All Subject Areas Audience(s): K-12, GT, Instructional Leaders, Curriculum Coordinators

Description:

Curious about how to use different technology resources in your classroom? Not sure what’s right for you? Many teachers have great ideas but they are not sure how to follow through with them. We will show you how to get started implementing technology without overwhelming yourself. If you have one device or a class set, you will take away ideas and resources to engage your students in learning. We will explore strategies, rediscover “veteran” resources, and discover new tools to implement right away. Join us to get fresh ideas on adding technology resources to your classroom. All you need to bring is your ideas, content knowledge, and an open mind. Anyone can be a Technology Rockstar!

TESS Components: 1a, 1d, 1e, 1f, 2b, 3a, 3b, 3c, 3d

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley’s Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

There is a \$25 fee per day for all participants outside the CRESC area. No professional development credit will be given until fee is paid.

Facilitator: EVA GRIFFIN Presenter(s): EVA GRIFFIN

Location: Rivercrest Elementary Computer Lab Limit: 25 Credit: 6.00

Date(s): Jun 4, 2018

Time: 8:30 am - 3:30 pm Registration Fee: \$0

CRESC

343102**CRESC - Computer Science in the K-8 Classroom Day 2**

Subject(s): Computer Science

Audience(s): K-8

Description:

Are you interested in online coding tools? Would you like more hands-on experiences for you to take back to your classroom? What is binary and where does it fit? This training is an extension of the Embedding the K-8 Computer Science Standards Across Content Areas Day 1 and will focus on more complex classroom examples. Day 2 training is for only those participants that have completed Day 1 of this training.

TESS Components: 1a, 1c, 1d

Note: Computer Science in the K-8 Classroom Days 1 & 2 do not count towards the 5 days needed for the K-8 Lead Teacher Training and Stipend Program.

Note: if fewer than 7 people register, the session will be canceled.

Please bring a laptop or Chromebook to this training.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Essentials Training: ABA for All - Basic Principles of Behavior

Subject(s): Special Education

Audience(s): K-12,Staff,Administrators,Asst. Principals,Special Ed

Description:

This 6 hour training is fundamental to the understanding and implementation of successful school-wide and classroom behavior strategies. The information is derived from nearly 50 years of research on individual students with problem behavior and is based on research in Applied Behavior Analysis. Participants will experience a theoretical shift relative to behavior management and behavior change. Basic Principles of Behavior is one of three Essential Skills Trainings that are beneficial to attend prior to any of the Tier 2 trainings being provided throughout the school year. The Essentials will be required in 2018-19 for the development of school district teams that will receive in depth training and coaching toward building local capacity.

TESS Components: 2

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. No professional development credit will be given until fee is paid.

Increase Industry-Level Welding Skills (3 hrs.) + Access and Learn to Use Free CNC/CAD Software that is Industry Recognized (3 hrs.)

Subject(s): Agri

Audience(s): CTE

Description:

Ken Beach, ASU Newport-Jonesboro's Instructor of Welding Technology will present:

1/2 day of CNC/CAD training using a free CAD program that is industry recognized and should work on all CNC systems

1/2 day of hands-on welding to train teachers to teach industrial-level welding

TESS Components: 1a, 1d, 2e

Participants should bring welding helmets, safety gear, and dress appropriately for the welding environment.

Mission Escape: Can you BreakOut?

Subject(s): Educational Technology,All Subject Areas

Audience(s): K-12,Administrators,GT, Technology Coordinator,Instructional Leaders,Instructional Facilitators,Curriculum Coordinators

Description:

Do you enjoy a challenge? How about puzzles, codes, and riddles? If you are a teacher who loves hands-on learning and challenging your students, then this is the session for you. These activities highlight teamwork, problem-solving, and critical thinking skills. Get your students (and faculty) to collaborate, communicate, and persevere, as they race to beat the clock. We will apply this game type learning to all content areas and grade levels. Join us to find out why BreakOut games and Escape rooms are all the rage. You will leave with resources and ideas on how to implement a BreakOut / Escape room in your classroom. This is a highly interactive training. Can you accept the mission to escape?

TESS Components: 1a, 1d, 1e, 2a, 2b, 2c, 2d, 3c, 3d, 3e

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. CRESC - Teaching the Coding Block for Grades 7 & 8 from a Project-Based Approach

Subject(s): Computer Science

Audience(s): 7-8

Description:

You've been asked to teach coding...now what? Are you interested in looking at multiple free online coding tools such as Micro:Bit, App Lab and Pencil Code that will allow you to teach the coding block from a project-based approach? You will have the opportunity to leave this training with a plan to teach your class in an exciting and engaging manner. Intended for the teacher who will provide instruction in the 7-8 Coding block. Participants will explore the Arkansas Coding Block standards through a series of activities that can be used in classroom instruction. Instructional strategies and extension activities for those offering more than the 4-week requirement will be included.

TESS Components: 1a, 1c, 1d

Note: if fewer than 3 people register, the session will be canceled.**Computers will be available for each participant to use in this training. Participants may choose to bring their own laptop (not a tablet).****Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>**

CRESC

346032**Essentials Training: Defining Behavior and Data Collection Tools**

Subject(s): Special Education

Audience(s): K-12,Administrators,Asst.
Principals,ParaProfessionals,Principals,Special Ed

Description:

Do you need any tools to help you with collecting behavioral data? Data collection is collecting specific information about a student's performance. Typically we think of this in terms of academic performance. But what about data collection needed for behavior performance measurement? What do we do then? This workshop will help participants: determine the best data collection method based on the type of behavior being measured; use a data collection guide which provides an explanation of each type of data collection method and how to summarize data; and understand basic information for preparing a behavioral graph. This 6 hour training is fundamental to the understanding and implementation of successful behavioral definitions, data collection and behavior change. The information is derived from nearly 50 years of research on individuals with problem behavior and is based on research in Applied Behavior Analysis. Defining Behavior & Data Collection Tools is one of three Essential Skills Trainings that are beneficial to attend prior to any of the Tier 2 trainings being provided throughout the school year. The Essentials will be required in 2018-19 for the development of school district teams that will receive in depth training and coaching toward building local capacity.

TESS Components: 1C, 2A, 2B, 2C, 2D, 4B

The Modern Workplace--Not What One Expects

Subject(s): Career and Technical Education, Agri, Business Ed

Audience(s): Administrators, Asst. Principals, Counselors, Principals, Instructional Leaders, Instructional Facilitators, Curriculum Coordinators, CTE

Description:

Educators will better understand and see firsthand how business and industry workplaces have changed as a result of this 2-day experience. Speakers from business and industry will provide information about their companies and what job opportunities and benefits they have to offer our students. A simulated training experience, input from business and industry, industry tours, and newly created industry connections will be taken back to the classroom and shared with students. This program provides teachers with more up-to-date information on training requirements and student options for careers. Educators get an opportunity to speak with industry leaders and to question them to learn about what skills our students need and what equipment is being used in the workplace. In other words, what do our students need to be successful in their current and future workplaces?

TESS Components: 1a, 1d, 1e

Critical Reading for 9-12 ELA

Subject(s): Literacy

Audience(s): 9-12,Special Ed

Description:

Studies show that 25-30% of high school students are struggling readers who do not meet academic standards or go to on to college, and these students often struggle in the workplace as adults. For most of these students, they did not master intermediate literacy skills before going on to high school (Shanahan, n.d.). This professional development session provides teachers the opportunity to examine the Critical Reading courses standards that address these intermediate literacy skills, as well as participate in sample lessons and planning activities. This session is ideal for secondary teachers who are teaching Critical Reading courses or responsible for any RTI components on their campus .

TESS Components: 1A, 1E, 3C

Executive Functions: Using Language to Think

Subject(s): Speech-Language Pathologists

Audience(s):

Description:

This workshop, based on training and text by Jill Fahy, CCC-SLP, is designed to explain Executive Function (EF) skills and the difficulties that can occur when development is delayed or when deficits are present as a result of language disorder and/or brain injury. Topics include the underlying cognitive foundation for and components of executive function, associated impairments, basic anatomy and physiology, normal development, the role of language as it mediates EF development and behaviors, formal and informal assessment options, intervention concepts, and treatment strategies that target specific areas of EF deficit.

Target Audience: This training is designed for SLPs who work in schools with students who are attempting to meet the CCSS in ELA. General and special education teachers, psychological examiners, supervisors, support staff, and any personnel who address language in coordination with SLPs may also benefit.

Session Materials: Session materials will be available online by the end of March (for participants to download and/or print prior to attending the session) via Shelly's Communication Board (go to Announcements). Participants may also want to bring a laptop, tablet, and/or smart phone.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. 347345**Creating a Growth Mindset in the Mathematics Classroom for Grades K-5**

Subject(s): Mathematics, Special Education

Audience(s): K-5, Asst. Principals, GT, Principals, Special Ed, Instructional Leaders, Instructional Facilitators

Description:

Banish math anxiety and give students of all ages a clear roadmap to success. Mathematical Mindsets provides practical strategies and activities to help teachers show all children, even those who are convinced that they are bad at math, that they can enjoy and succeed in math. Learn how to turn research findings into practical activities and advice. Learn how students can go from self-doubt to strong self-confidence, which is so important to math learning. Mathematical Mindsets: Explains how the brain processes mathematics learning, Reveals how to turn mistakes and struggles into valuable learning experiences, Provides examples of rich mathematical activities to replace rote learning, and Explains ways to give students a positive math mindset. Scores of students hate and fear math, so they end up leaving school without an understanding of basic mathematical concepts. Their evasion and departure hinders math-related pathways and STEM career opportunities. Mathematical Mindsets provides a proven, practical roadmap to mathematics success for any student at any age. Based on the books Mindset: The New Psychology of Success by Carol Dweck and Mathematical Mindsets by Jo Boaler.

Participants will receive a copy of Jo Boaler's book.

Financial Planning and Wealth Management + FACS and Business Semester Finance Course

Subject(s): Career and Technical Education,Family and Consumer Science,Business Ed Audience(s): 11-12,CTE

Description:

Description:

Dr. Philip Tew is well known across the state because of his willingness to visit your classrooms and teach our students about Financial Literacy. Dr. Tew's training session will address the new Financial Planning and Wealth Management frameworks along with our CTE semester finance courses taught by both FACS and Business teachers ; there will be something for everyone. Just as our FBLA students enjoyed his, "How to Get Rich in College," presentation at the State FBLA Conference, you will enjoy a fast-paced day with a wealth of information and teaching strategies to take back to your classrooms.

TESS Components: 1a, 1b, 1d

Instructor:

Philip Tew, JD / PhD, Associate Professor of Finance Director for the Center of Economic Education and Financial Literacy, Arkansas State University

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. http://crowleys.crsc.k12.ar.us/handouts

Creating a Growth Mindset in the Mathematics Classroom for Grades 6-8

Subject(s): Mathematics,Social Sciences

Audience(s): 6-8,Asst. Principals,GT,Principals,Special Ed,Instructional Leaders,Instructional Facilitators

Description:

Banish math anxiety and give students of all ages a clear roadmap to success Mathematical Mindsets provides practical strategies and activities to help teachers show all children, even those who are convinced that they are bad at math, that they can enjoy and succeed in math. Learn how to turn research findings into practical activities and advice. Learn how students can go from self-doubt to strong self-confidence, which is so important to math learning. Mathematical Mindsets: Explains how the brain processes mathematics learning, Reveals how to turn mistakes and struggles into valuable learning experiences, Provides examples of rich mathematical activities to replace rote learning, and Explains ways to give students a positive math mindset. Scores of students hate and fear math, so they end up leaving school without an understanding of basic mathematical concepts. Their evasion and departure hinders math-related pathways and STEM career opportunities. Mathematical Mindsets provides a proven, practical roadmap to mathematics success for any student at any age. Based on the books Mindset: The New Psychology of Success by Carol Dweck and Mathematical Mindsets by Jo Boaler.

Participants will receive a copy of Jo Boaler's book. TESS Components: 1b, 2b, 2d, 3b, 3c, 4e, 4f

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. 349102	Choice: The Power Source for Today's Learner
---------------	-----------------------------------------------------

Subject(s): Educational Technology, All Subject Areas Audience(s): K-12, Administrators, Principals, Instructional Leaders, Instructional Facilitators

Description:

“The world is unpredictable. The corporate ladder is now a maze, which means our students will need to think divergently.” (John Spencer) Technology can do many things in a classroom, but one of its biggest impacts is the ability to put the power of learning in the hands of the learners. If you had to prioritize, would you want your students compliant or curious? Proficient or passionate? Engaged or empowered? Recharge your classroom with personalized learning. We will look at fun ways to use technology to give our students choice in demonstrating knowledge, finding authentic audiences, chasing curiosity, and reflecting on learning. (Note: We love Chromebooks and everything Google! We will have Chromebooks and PCs available, but you are welcome to bring your own device.)

TESS Components: 1C, 1D, 1E, 2B, 3C, 3E, 4A, 4D, 4E

Addressing Behavior with Students Receiving Special Education: Avoiding Due Process Disputes

Subject(s): Special Education

Audience(s): K-12,Administrators,Asst. Principals,Principals,Special Ed

Description:

This training is geared for building level administrators, but we welcome any educator in the general education or special education settings. As a great many due process hearings and state complaints include a behavioral component, this training will provide information on behavior and discipline for students in the special education population, procedures necessary to better address and document behavior, as well as some examples of past complaint and due process hearing findings. The training will provide an opportunity to collaborate while looking at examples of student discipline situations that commonly occur, and how the school administration, and the IEP team, might address the scenarios to give the best opportunity for avoiding escalation of the issue, or how to best proceed if a situation has escalated into a more intense level in the dispute resolution process.

TESS Components - 1d, 4b, 4e, 4fLEADS Standards - 1B, 2A, 2C, 2D

Lunch will be provided.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Classroom Systems that Work: Classroom Structure, Routines, Visual Cues and Work Systems

Subject(s): Special Education

Audience(s): K-12,Special Ed

Description:

Structured Teaching is an evidence-based approach to instructing students with Autism. This approach will also benefit students with ADHD, OCD, learning impairments, communication disorders, and hearing impairments. Structured Teaching is a system for organizing student environments, developing appropriate activities, and helping students understand what is expected of them. There are five major components to structured teaching, including physical organization/visual boundaries, schedules, routines, work systems, and task organization. This module will help participants to: (1) organize and plan a classroom to meet the needs of students, (2) set up the physical structure of a classroom, (3) identify and implement numerous visual supports in the classroom, (4) apply the components of structured work systems, and (5) create and implement task organization to promote independence in the classroom. The participants will leave with useful tools to be utilized in the classroom. TESS Component: 2

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

There is a \$25 fee per day for all participants outside the CRESC area. No professional development credit will be given until fee is paid.

French and Spanish Teachers : A Little Bit of Extra Help

Subject(s): Foreign Language

Audience(s): K-12, Instructional Leaders, Instructional Facilitators

Description:

When he started to teach French and Spanish, Jesse Gunter was without a classroom...a floater. To make his life easier without having to haul around textbooks, he made handouts from scratch in both French and Spanish. In this session, he will share these handouts in take-home format that teachers will be able to use in their own classroom. Many could be used when teachers need a little extra to keep students engaged.

TESS Components: 1a, 1d, 3c, 4e

Participants should bring their own laptop to this session.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

What's the Question? Using Text-Dependent Questions to Support Students' Close Reading and Comprehension

Subject(s): Literacy

Audience(s): 9-12, Special Ed, Instructional Facilitators

Description:

As students are confronted with increasingly complex text, they often struggle to identify the most important information and make sense of what they have read, or they read simply to summarize the content rather than analyze a text for components of craft and structure. One way that teachers can help their students delve deeper into a text is by guiding students' thinking with text-dependent questions and close reading strategies. This interactive professional learning session provides teachers with the opportunity to participate in close reading strategies with secondary-level texts, as well as time to develop their own text-dependent questions with texts of their own. While any secondary teacher is welcome to attend, the texts used and examples offered will target ELA teachers in grades 9-12.

TESS Components: 1A, 1E, 3B

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Illustrative Mathematics 6-8 Curriculum and Instruction Training

Subject(s): Mathematics

Audience(s): 8,9-10,Administrators,Asst.
Principals,Counselors,Principals,Special Ed,Instructional
Leaders,Instructional Facilitators,Curriculum Coordinators

Description:

Are you looking for a new curriculum that meets the rigorous demands of our state standards and supports the Arkansas Department of Education’s vision to lead the nation in student-focused education? This training will introduce you to a NEW, FREE resource provided by Open Up Resources called Illustrative Mathematics 6-8 Math Curriculum (IM). This curriculum provides: Vertical alignment information (K-HS) and differentiation strategies in the easy-to-follow teacher notes; Student-friendly learning targets at the beginning and end of each lesson to encourage students to take ownership in their own learning; Diagnostic and End-of-Unit Assessments, as well as Mid-Unit assessments for longer units; and Built-in support for English Learners and Students with Disabilities within each unit, rather than in supplemental materials. The initial three-day training is an opportunity to learn all the curriculum has to offer and the instructional strategies paired with it. The training continues with follow-up support during the school year to ease the transition from professional development to implementation in the classroom with real students. Support will be customized for each school based on your expressed needs for your students. Participants will register for follow-up support separately. This curriculum offered by Open Up Resources is funded by a grant from the Gates Foundation . Curriculum for Algebra 1, Geometry, and Algebra 2 are being piloted FY19 and will be available FY20. Open Up Resources plans to provide K-Algebra 2 vertically aligned curriculum in the near future.

TESS Components: 1a, 1c, 1d, 1e, 1f, 2a, 2b, 2c, 3a - e, 4d, 4e, 4f

Close Reading Strategies to Improve Secondary Student Comprehension Across Disciplines

Subject(s): All Subject Areas

Audience(s): 9-12, Special Ed, Instructional Facilitators

Description:

Knowing "how to read" novels, plays, short stories, and other literary works does not help students in other disciplines. Each discipline has its own specialized reading demands, and many discipline-specific strategies are not transferable to other subjects, therefore targeted instruction is valuable (Shanahan, " Bridging the Achievement Gap"). One way to support students as they maneuver through discipline-specific texts is to implement close reading strategies that best match the targeted reading demands of the discipline. This professional learning session provides teachers of core content areas a strategic planning system of text analysis, selection of appropriate close reading strategies, and development of lessons. Activities will be based on the works of Timothy Shanahan, Doug Buehl, and ReLeah Cossett Lent. While all secondary teachers are welcome to attend, the targeted focus will be on non-ELA teachers for grades 9-12.

TESS Components: 1C, 1E, 3C

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. Subject(s): All Subject Areas, Library Media Specialist Audience(s):

Description:

To learn the true meaning of "ICE Baby", plan to attend the introduction to the new 2017 American Association of School Librarians' National School Library Standards for Learners, School Librarians and School Libraries. This workshop, sponsored by the Arkansas Department of Education, will provide an overview of the three parts of the new AASL Standards Framework, and the three shared foundations. Participants will be given the opportunity to evaluate their school library program in accordance with the new AASL Standards Integrated Framework and set goals for improvement.

TESS Components: 1a, 1b, 1c, 1e, 2b, 2c, 3a, 3b, 3c, 3d, 3e, 4a, 4e

Note: If the minimum enrollment of 10 participants is not met, this session will be canceled. If session is canceled, school librarians are encouraged to attend this PD at a Cooperative that has met the minimum.

Please bring a laptop or other device to this training.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

345054 Theatre In Every Classroom: Theatre Games

Subject(s): Fine Arts Audience(s): K-12

Description:

Theatre can be a powerful tool when used to engage students in any lesson. It teaches speaking and language skills, encourages students to develop new perspectives, and allows them to demonstrate deeper understanding of subject matter. This three-hour workshop will offer K-12 teachers a variety of theatre strategies adaptable for any classroom or content area. Even “non-drama” teachers will be able to use these simple theatre games to get students on their feet for learning, and current theatre teachers will pick up some new techniques to share with colleagues. TESS Components: 2e, 3c This session is designed as a companion workshop with Theatre In Every Classroom: A Toolkit.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley’s Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$15 fee for all participants outside the CRESC area. No professional development credit will be given until fee is paid.

Theatre In Every Classroom: A Toolkit

Subject(s): Fine Arts

Audience(s): K-12

Description:

Any teacher with an interest in theatre integration, implementing theatre course offerings, or starting a new theatre program will take away from this session a toolkit that will help accomplish that goal. An update on the status of theatre education in Arkansas and the role theatre plays in the fine arts requirements of Arkansas's Standards of Accreditation will be provided. The experiences of Arkansas teachers who have built successful programs will be shared, and discussion will include suggestions such as these:

- justifying the establishment of a new theater or dance program, including using it as a means of accomplishing the district's Title I/ESSA plan goals (student learning, school culture, student engagement, parental involvement)
- collaborating with community organizations, civic clubs, or businesses
- producing a school play on a tight budget
- establishing after-school theater programs
- hosting or participating in a one-act playwriting or production contest, speech and drama tournament, Poetry Out Loud or other events
- taking advantage of Arkansas Arts Council Arts in Education roster and grant programs

TESS Components: 2e, 3c

This session is designed as a companion workshop with Theatre In Every Classroom: Theatre Games.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Strategic Instruction Model (SIM): The Vocabulary Lincing Strategy

Subject(s): All Subject Areas

Audience(s): 9-12, Special Ed, 4-8, Federal Coordinators

Description:

The Strategic Instruction Model (SIM) is being used to increase capacity within Arkansas schools to improve academic outcomes for students at risk for school failure by ensuring access to high quality, research-based professional development to general and special education teachers who work with adolescents with learning problems. There are two general approaches designed to achieve the major outcome. The first is to build teacher capacity for demonstrating mastery in the application of the SIM methodologies, and the second is to increase sustainability and scalability of the high quality, researched-based strategy instruction used by participating district teaching teams. This session is one of the first Content Enhancement Routines (CER) that is used by teachers to teach the curriculum to academically diverse classes in ways that all students can understand and remember key information. This 3-hour session will focus on a specific vocabulary strategy that is ideal for whole group instruction, small group instruction, and interventions.

TESS Components: 1a, 1e

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

346442 Creating a Highly Engaged Classroom Workshop

Subject(s): All Subject Areas Audience(s): K-12

Description:

Engage students deeply in the joy of learning. Create a lively, dynamic classroom in which students are excited to learn and have the drive to keep exploring until they succeed. This workshop explores the four questions behind student engagement and shows how to set the stage for positive answers to each of them: 1. How do I feel? 2. Am I interested? 3. Is this important? 4. Can I do this? Learn how to lay a positive foundation that predisposes students to learn. Take home practical, research-based strategies to spark student interest and make learning personally relevant. Discover how to build the confidence that gives students ownership of their learning. TESS Components: 3c Each participant will receive a free copy of The Highly Engaged Classroom by Robert Marzano and Debra Pickering .

Instructor: Tina BoogrenLunch will be provided.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley’s Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. 347473 Teaching for Improving Students' Depth of Knowledge: K - 5 Math

Subject(s): Mathematics

Audience(s): K-5,GT,Special Ed,Instructional Facilitators

Description:

How can we help prepare our students for standardized tests without spending valuable instruction time on test preparation? What does Webb say about Depth of Knowledge? One way to improve mathematics teaching and learning is through effective questioning. This professional learning experience will focus on using Webb's Depth of Knowledge to empower educators to identify and create questions that give students the opportunity to learn at the highest levels, which will help them be successful on any exam/test they encounter. This is not an ACT Aspire test prep. However, if we strive each day to teach at an increased level of depth of knowledge test scores should reflect that effort.

TESS Components: 1a, 1d - f, 3b - d, 4d, 4e

Learning Blade Updates--An Engaging Online Curriculum

Subject(s): Career and Technical Education, Educational Technology, G/T, Family and Consumer Science, Agri, Business Ed, Computer Science

Audience(s): 7-12, Counselors, GT, Special Ed, Technology Coordinator, Instructional Leaders, Instructional Facilitators, Curriculum Coordinators, CTE

Description:

Learning Blade, a Statewide Initiative for Career Education and STEM Awareness; On-LINE CURRICULUM—Funded by the State of Arkansas

It is rare to find an online curriculum that students can get excited about and enjoy doing. The Learning Blade system allows students to pick and choose missions that relate to and focus on their chosen career pathways. Students across the state of Arkansas are benefiting from Governor Asa Hutchinson’s initiative which provides funding for this STEM career awareness program. In Learning Blade, students explore careers and technologies in many areas such as computer tech, engineering, health sciences, robotics, entrepreneurship and agriculture. STEM related technologies lay the foundation for all career pathways making it relevant for every student. For example, students love the Dolphin Rescue Mission, where they are introduced to careers in animal science, health care, and more. Students may choose the missions relevant to their career focus. STEM online and hands-on lessons are aligned to all Arkansas CTE pathways of study as well as common core state standards. Lessons are being incorporated in Career Development, GT, science, and foundational-level CTE programs of study from Grades 7-12.

TESS Components: 1d, 1e

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley’s Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

347486	Teaching for Improving Students' Depth of Knowledge: 10-12 Math
---------------	------------------------------------------------------------------------

Subject(s): G/T,Mathematics,Special Education Audience(s): 10,11-12,GT,Special Ed,Instructional Facilitators

Description:

How can we help prepare our students for standardized tests without spending valuable instruction time on test preparation? What does Webb say about Depth of Knowledge? One way to improve mathematics teaching and learning is through effective questioning. This professional learning experience will focus on using Webb's Depth of Knowledge to empower educators to identify and create questions that give students the opportunity to learn at the highest levels, which will help them be successful on any exam/test they encounter. This is not an ACT Aspire test prep. However, if we strive each day to teach at an increased level of depth of knowledge test scores should reflect that effort .TESS Components: 1a, 1d – f, 3b – d, 4d, 4e

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. 350492 The Keys to Successful Co-Teaching

Subject(s): All Subject Areas Audience(s): K-12,Instructional Facilitators
 Description:
 This interactive session, provided by the Arkansas Co-Teaching Project team, provides an overview of the co-teaching arrangement of a general educator and special educator sharing a classroom and the responsibilities for teaching all students in the classroom. The presenters will demonstrate the six instructional formats and will explain how incorporating "specially designed instruction" will increase the effectiveness of a co-taught classroom. The session is appropriate for special educators, general educators, and administrators who are new to co-teaching or those who would like a refresher. We also encourage instructional facilitators and others who support these teachers to attend.
 TESS Components: 1d, 2b, 2c, 3c, 4e

**Strategic Instructional Model (SIM) – Adolescent Literacy Strategies (Science)
Grades 5-12**

Subject(s): Science

Audience(s): Special Ed,5-12

Description:

If you are looking for tools to help your student read and comprehend science text, this workshop is for you. Participants will participate in an overview of the Strategic Instruction Model (SIM) and learn one of the routines. SIM is a comprehensive, research-validated approach to adolescent literacy that addresses the needs of students to be able to read and understand large volumes of complex materials as well as their need to be able to express themselves effectively in writing. All of the routines promote direct, explicit instruction to facilitate problem-solving and critical thinking skills for students. SIM is designed to provide support for teachers and students throughout the school year as they learn new routines.

Creating a Highly Engaged Classroom Workshop

Subject(s): All Subject Areas

Audience(s): K-12

Description:

Engage students deeply in the joy of learning. Create a lively, dynamic classroom in which students are excited to learn and have the drive to keep exploring until they succeed. This workshop explores the four questions behind student engagement and shows how to set the stage for positive answers to each of them: 1. How do I feel? 2. Am I interested? 3. Is this important? 4. Can I do this? Learn how to lay a positive foundation that predisposes students to learn. Take home practical, research-based strategies to spark student interest and make learning personally relevant. Discover how to build the confidence that gives students ownership of their learning. TESS Components: 3c Each participant will receive a free copy of The Highly Engaged Classroom by Robert Marzano and Debra Pickering.

**Instructor: Tina BoogrenLunch will be provided.

Evidence-based Practices for Post-School Success

Subject(s): Special Education

Audience(s): Special Ed

Description:

There are many factors that contribute to a student's success once they leave high school . This workshop will present those predictors and provide a tool for participants to assess if those predictors are offered in their school (or how it might be possible to offer them). The presenter will share evidence-based practices in a variety of areas that correlate with those predictors and that attendees can use when they go back to the classroom. Sample videos of some practices will be shown. Attendees are strongly encouraged to bring a team of two or more for more effective use of tools within the training . The Beginning Teacher's Field Guide: Embarking on Your First Years

Subject(s): All Subject Areas

Audience(s): K-12

Description:

The personal side of starting a teaching career - the joys and pains - often goes undiscussed. The Beginning Teacher's Field Guide: Embarking on Your First Years offers the advice and empathy K-12 beginning teachers so desperately need. Author Tina H. Boogren pairs the six phases a new teacher goes through - (1) anticipation, (2) survival, (3) disillusionment, (4) rejuvenation, (5) reflection, and (6) second anticipation - with personal essays she wrote during her first years in the classroom. She will arm participants with classroom strategies and self-care practices tailored to the challenges they're likely to encounter in each phase, and encourages them to record their reflections directly in the book. TESS Components: 2d, 4a, 4e

Each participant will receive a free copy of The Beginning Teacher's Field Guide: Embarking on Your First Years by Tina H. Boogren.

THIS SESSION IS ONLY FOR NOVICE TEACHERS IN THEIR 0 TO 3RD YEAR OF TEACHING.

Instructor: Tina Boogren

Lunch will be provided.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. No professional development credit will be given until fee is paid.

CRESC

347916	7% - Students with Complicated Concussions
---------------	---------------------------------------------------

Subject(s): Health

Audience(s): K-12,Instructional Leaders,School Nurse,Instructional Facilitators

Description:

Post-concussion syndrome (PCS) may occur in approximately 5 - 7% of students who sustain a concussion. Students with post concussive syndrome may demonstrate symptoms and learning issues, a year, or sometimes several years. This training will address what schools can do to help students with post-concussion syndrome to be successful. It will address students' lack of executive skills when they have post-concussion syndrome. Some students with PCS may also exhibit co-morbid conditions such as ADHD, ODD, and/or Anxiety Disorder, which can complicate the student being successful in the school setting.

TESS Component: Domain 4

343070 CRESC - Arkansas K-8 Lead Teacher Training and Stipend Program

Subject(s): Computer Science

Audience(s): K-8

Description:

Share your excitement and enthusiasm for computer science by being a lead teacher within your district. This five day (30 hours) professional development is mandatory for educators interested in the Arkansas Department of Education K-8 Lead Teacher Training and Stipend program. Spots will be filled on a first come first serve basis. Participants will not be eligible for any stipends unless they complete all five days. Participants will receive training on the K-8 computer science embedded standards, methods, materials, and best practices on how to share this knowledge with other K-8 educators working to embed the computer science standards across other content areas. Specifics regarding the available stipends and requirements necessary to be eligible for the stipends can be found at <http://adecm.arkansas.gov/ViewApprovedMemo.aspx?Id=3443>. Each Arkansas educator is only eligible for this stipend program once.

TESS Components: 1a, 1c, 1d

Note: if fewer than 5 people register, the session will be canceled. Registration deadline is 4/27/18.

Please bring a laptop or Chromebook to this training.

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Writing PLC for ELA in Grade 9-12

Subject(s): Literacy

Audience(s): 9-12,Special Ed,Instructional Facilitators

Description:

This flexible format for professional learning will focus on writing in the ELA classroom . Participants will become members of a professional learning community. Online platforms and virtual meetings will follow a face-to-face initial meeting with specialists during the summer date. Participants will read and discuss texts via discussion boards, participate in at least five to six meetings via Zoom or campus visits, receive virtual and onsite coaching, and complete and submit evidence based on new learning from this professional experience. The PLC will begin with 6 summer hours and culminate in April of 2019. As all requirements are completed, participants will receive a total of 18 professional development hours.

347493**Writing Across the Disciplines for Secondary Classes**

Subject(s): All Subject Areas

Audience(s): 7-12, Special Ed, Instructional Facilitators

Description:

All students need a well-balanced writing diet of "writing to learn" activities and "writing to demonstrate learning" tasks across all content areas. However, many teachers outside of the English classroom are often hesitant to address writing as part of their instruction. This professional learning session provides teachers in all disciplines the opportunity to experience several writing activities that can be used to help engage students with content and strengthen their writing skills in authentic ways. Strategies for writing instruction will be based on the works of Harvey Daniels, Nancy Steineke, Carol Ann Tomlinson, and Robert Reid.

TESS Components: 1A, 1E, 3C

Strategic Reading in Grades 6-8

Subject(s): Literacy

Audience(s): 6-8,Special Ed,Instructional Facilitators

Description:

Effective or expert readers are strategic. They have purposes for their reading, adjust their reading to each purpose, and use a variety of strategies and skills as they construct meaning. These strategies are often introduced in the intermediate grades, but some students require additional explicit instruction once they reach middle school or junior high school. This professional development session provides teachers the opportunity to experience various strategies lessons using fiction and nonfiction texts, as well as discussion protocols and writing options related to reading. These strategies and activities are aligned with standards from the Strategic Reading course/s. TESS Components: 1A, 3C

This session is ideal for any mid-level teacher who is responsible for remediation courses or ELA teachers who want to refine their lessons for reading in the regular or special education classrooms.

**Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Using ACT Aspire Suggestions to Support Struggling Readers in Grades 6-8

Subject(s): Literacy

Audience(s): 6-8,Special Ed,Instructional Facilitators

Description:

How do you define a reader who is close to levels of proficiency or in need of extended support? Once identified, how can you target students' needs and plan effective lessons for those readers? This professional development provides mid-level teachers the opportunity to examine the Performance Level Descriptors (PDL) for their grade, as outlined by ACT Aspire, and participate in reading activities based on the Improvement Ideas for Summative Tests document . Teachers will also have the opportunity to spend time planning their own reading lessons based on specific components of the PLDs. This session is ideal for any reading teacher in grades 6-8 who is responsible for RTI or wants to learn more about ways to support struggling readers in the classroom.

CRESC

350142**Making Sense of Personalized Learning, Competency-Based Education, and Blended Learning...How are they related and what do they mean?**

Subject(s): All Subject Areas

Audience(s): K-12

Description:

This session provides an overview of two approaches to teaching and learning that are making headlines for innovative practices and how they are built on a foundation of blended learning. These approaches place the student at the center of teaching and learning. Arkansas' Own Team Digital will facilitate the opportunity for participants to learn common vocabulary and understanding to apply in their classroom, building, or district.

Participants will be able to:

Define and differentiate between personalized learning, competency-based education, and blended learning.

Describe what each approach may look like in the classroom and at school levels.

Reflect on how a shift towards each approach could impact a child's education AND your professional role.

This training is offered in a blended learning format. Three hours of face-to-face learning and three hours of online engagement.

TESS Components: 4a, 4e

Participants should bring their own device and headphones, if possible. If not, please notify the presenter that you need one provided.**Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>****There is a \$25 fee per day for all participants outside the CRESC area. 350712**Enhancing Current Curriculum in Grades 3-5 Mathematics**

Subject(s): G/T, Mathematics, Special Education

Audience(s): 3-5, Special Ed, Instructional Leaders, Instructional Facilitators

Description:

From curriculums currently being used in the districts within our region, participants will engage in tasks to develop a deeper understanding of the following: Purposeful Pedagogy and Discourse Model of Instruction, Standards for Mathematical Practice, Arkansas Mathematics Standards, Depth of Knowledge, and ACT Aspire Performance Level Descriptors.

Participants will investigate how to recognize and integrate these elements in the classroom. Tasks will focus on Number and Operations in Base Ten and Number and Operations with Fractions within the Arkansas Mathematics Standards.

TESS Components: 1a, 1d, 1e, 3a, 4a

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>**There is a \$25 fee per day for all participants outside the CRESC area. CRESC

347281 Using ACT Aspire Improvement Ideas to Support Struggling Writers in Grades 6-8

Subject(s): Literacy Audience(s): 6-8,Special Ed,Instructional Facilitators

Description:

According to the National Center for Education Statistics (1998), "Effective writing skills are important in all stages of life from early education to future employment." However, current data tells us that less than 50% of our mid-level students exhibit proficient writing skills. The question now becomes "How can we identify students' specific areas of writing skill deficits and plan effective lessons to support them?" This professional development session provides teachers with the opportunity to answer this question with the help of the ACT Aspire Performance Level Descriptors (PLD) and the Improvement Ideas for Summative Tests document. This will be an interactive day with teachers participating in various writing activities and planning their own lessons based on PLD needs.

TESS Components: 1A, 1E, 3D

347310 Vocabulary Instruction K-3

Subject(s): Literacy,Special Education Audience(s): K-2,3,Special Ed,Instructional Leaders

Description:

The Arkansas State Standards stress the acquisition of rich and flexible word knowledge . Vocabulary instruction should provide students with instruction about the connections and patterns in language, including word parts, word origins, and word relationships. Research suggests that if students are to truly know a word, they will need multiple exposures across contexts and make connections to their own experiences.

345427

Argument Driven Inquiry (ADI) Science

Subject(s): Science

Audience(s): 6-12,Special Ed

Description:

The Argument-Driven Inquiry (ADI) instructional model is a tool for science teachers. Teachers can use ADI to transform the way they teach labs so students have more opportunities to learn how to use Disciplinary Core Ideas (DCIs), Crosscutting Concepts (CCCs), and Science/Engineering Practices (SEPs) to figure out how things work or why things happen. ADI also gives students opportunities to learn how to read, write, speak, and listen in science because it makes scientific argumentation the foundation of all laboratory activities. ADI, as a result, makes classroom science more like real science for students and can help them learn more than they typically do from hands-on lab activities.

TESS Components: 1a, 1b, 1c, 3a, 3b, 3c

347364**Read, Talk, and Write: Analysis Activities in Fiction and Nonfiction Texts**

Subject(s): Language Arts, Literacy, Science, Social Sciences, Special Education

Audience(s): 5-8, Special Ed, Instructional Facilitators

Description:

What role in comprehension does conversation play? Students participating in various types of literary conversations not only build collaboration skills but also critical analysis and interpretive skills. This supports students' efforts to deepen their understandings of various texts and strengthen their writing. This interactive session provides teachers the opportunity to participate in Laura Robb's "Six Types of Talk" lessons while using quality fiction and nonfiction texts. The lessons can be replicated in any mid-level ELA classroom. This session is ideal for any mid-level teacher who wants to purposefully embed speaking and listening standards into reading and writing tasks.

TESS Components: 1A, 1D, 1E

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts>

Classroom Systems that Work: Classroom Structure, Routines, Visual Cues and Work Systems

Subject(s): Special Education

Audience(s): K-12,Special Ed

Description:

Structured Teaching is an evidence-based approach to instructing students with Autism. This approach will also benefit students with ADHD, OCD, learning impairments, communication disorders, and hearing impairments. Structured Teaching is a system for organizing student environments, developing appropriate activities, and helping students understand what is expected of them. There are five major components to structured teaching, including physical organization/visual boundaries, schedules, routines, work systems, and task organization. This module will help participants to: (1) organize and plan a classroom to meet the needs of students, (2) set up the physical structure of a classroom, (3) identify and implement numerous visual supports in the classroom, (4) apply the components of structured work systems, and (5) create and implement task organization to promote independence in the classroom. The participants will leave with useful tools to be utilized in the classroom. TESS Component: 2

Handouts (if applicable) will be available within five days prior to the session date and can be accessed at the Crowley's Ridge Educational Service Co-op website. <http://crowleys.crsc.k12.ar.us/handouts> There is a \$25 fee per day for all participants outside the CRESC area. Middle Grade Interventions Using Multi-Syllabic Words and Greek and Latin Roots

Subject(s): Literacy

Audience(s): 5-8, ParaProfessionals, Special Ed, Instructional Leaders, Instructional Facilitators

Description:

Text comprehension requires reading with fluency, which requires decoding with automaticity. Many mid-level students struggle with fluency and automatic decoding because the texts at those grade levels contain mostly multi-syllabic words, in addition to new content that may be unfamiliar to the students. Non-fluent readers need additional scaffolding to aid in their comprehension. This professional learning opportunity provides mid-level teachers and interventionists with practical activities that can be used to enhance readers' fluency and comprehension. Half of the day will focus on various ways to approach multi-syllabic words, and half of the day will focus ways to approach the study of Greek and Latin roots.

TESS Components: 1a, 3e
